

Wild Tonight

Every time I look behind me
I feel there's someone there
The ever present thoughts of you
The wonder in your stare

Pre-Chorus: Hold me with all your might
Don't ever let me go
No more lies, there's no disguise
No need to take it slow

The lights are low, the music's slow
We softly talk for hours
We talk of love and we talk of fate
We wisper our desires

A gentle kis, a sweet caress
Free the love we hold inside
Our passion grows as the night unfolds
This feeling won't subside

Chorus: Let's go wild tonight
Let's do everything rights, baby..
Let's ignight the fires
Of our deepest desires, baby..
